

Homeschool Parent's Pains - Questions - Solutions

Mathematics, Post elementary, for middle and high school students, 7 - 12.

Pains:

Overworked
Overstressed
Self-doubt/Lack of confidence
Inadequate Math knowledge and skill level
Judged negatively as Math Teacher, by Yourself and/or Others

Questions:

Do you lack the confidence to teach your students upper level math?

Algebra, Geometry, Trigonometry, PreCalculus, Calculus

Do you worry If you are giving your students the Math they *really* need to be successful after homeschooling?

Are you or your students stressing about Math?

Solutions: Good News!

If this is You, read the appropriate Chapters in the book by Dr. Craig Hane,

Golden Rule Math for All God's Children

This book will Answer your questions, and show you how to Relieve all of your Pains, and how to deliver your students an Optimal 21st Century Math Program they will love, and very cost effectively in terms of both time and money.

You may purchase it on Amazon for \$29 Printed book, or \$9.99 Kindle book
